

Guide for APMC 2026 Esports Assetto Corsa Qualifier

IMPORTANT

- Access to the qualifying server is contingent upon the participant having the Content Manager application installed.
- It is mandatory that the participant has selected the correct nationality in-game.
- It is mandatory that the participant's username contains their country's name enclosed in parentheses.
- Any lap time recorded on the server without the participant's country being visible in both the specified in-game setting and the username will be deemed invalid.
- Participants are strongly advised to record and retain the replay file of their fastest lap time on the server. This recording will serve as evidence in the rare event that the time fails to appear on the official leaderboard.
- Please be advised that lap times recorded on the server may not be reflected on the leaderboard immediately. The leaderboard is subject to a refresh cycle and is updated every hour.

HOW TO CHANGE YOUR NATIONALITY & NAME?

1. Navigate to the DRIVE section via the following menu path:

SETTINGS > CONTENT MANAGER > DRIVE > PLAYER'S NAME

2. On the right-hand side of the screen, locate the fields for "Name", "Nationality", and "Online Name" under PLAYER'S NAME.
3. Ensure you select your correct nationality, and you must modify both name fields to be identical. The required format is your name followed by your country enclosed in parentheses, as shown in the image below.
